

資產管理月報

區間：2020/5/1~2020/5/31

本月關注重點

五月的加密貨幣市場無論是現貨、期貨交易量，還是穩定幣發行量都不斷成長，佔90%以上流通量的穩定幣USDT從二月到現在已發行超過10 Billion。代表場外資金正在不斷灌入加密貨幣市場，有可能是傳統金融機構已研究完畢，正在漸漸佈局。也可能因為五月發生了近期產業最重要的大事件 - 比特幣產量第三次減半。鑑往知來，前幾次比特幣減半後的幾個季度，都迎來了加密貨幣的大牛市，這次看起來應該也無例外，畢竟市場各方面數字指標成長越來越快。各位 Steaker 的客戶不用擔心，您已經搭上這班快速成長的列車上了。

Monthly Report

Period: 2020/5/1~2020/5/31

Focus of the month

In May, the trading volume of cryptocurrencies in both spot and futures markets as well as Stablecoin issuance has continued to grow. Since February, more than 10 Billion of USDT accounts for more than 90% of the circulation has been issued. This means funds outside the market has been pouring into the cryptocurrency market. It could have been that the traditional financial institutions have completed research and are starting to position themselves. It also could have been because of the third Bitcoin halving in May, which is the most important recent event in the blockchain sector. The previous Bitcoin halvings led to quarters of the bull market in cryptocurrency, and this one should be no exception. All the market data suggest the growth would only be faster. You do not need to worry as you are already a Steaker client; you are already aboard this train of growth.
